EXAMINER'S AMENDMENT

1. Applicant's election of Group I, claims 1-21 in the reply filed on 5/22/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claim 22.

Claim 22 was cancelled as being non-elected without traverse.

3. The following is an examiner's statement of reasons for allowance:
Claims 1-21 have been found to be allowable. Applicant's arguments have

been convincing in overcoming the 35 USC 112 rejections of the claims.

Page 5 of the specification provides definition for "conforming immersion medium" which excludes flowable liquids and gases.

The claims have been found to be allowable over the prior art for the following reasons: Tabarelli, the primary reference, teaches only liquids as immersion medium. These liquids do not fit the definition of conforming immersion medium as provided in the specification. The secondary references do not overcome the deficiencies in Tabarelli. Tholl teaches gelatins which are used in holographic lenses. These lenses and gelatins are not used in lithography as required in claim 1 of the present application. Endo teaches an immersion medium comprising water and an antifoaming agent. Paragraph 0042 teaches adding the antifoaming agent in small amounts which would not affect the flowability of the liquid. Finally, Franklin teaches the use of hydrogels in bioproducts. There is no suggestion or teaching of using the hydrogels in lithography.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
